

# CAMERON ASHBY

## Exploring the Latest Trends in Technology and Education

Cameron Ashby is an AV Engineer, Journalist, and System Integrator with a passion for audiovisual technology, EdTech, AI integration, and enterprise solutions. With hands-on industry experience and an MFA in New Media Journalism from Full Sail University, Cameron covers emerging technologies with an investigative and solutions-driven approach.

Through Tech Releases, Cameron delivers in-depth reporting on AV advancements, education technology, system integration strategies, and AI's role in media and production—helping professionals stay informed about the latest industry trends.
